

About Cambia Health Solutions

Cambia Health Solutions is dedicated to making the health care experience simpler, better and more affordable for people and their families, including the more than 3.4 million people we serve through our regional health plans.

Our health plan roots

For more than 100 years, Cambia has been deeply rooted in a legacy of transforming the industry and the way people experience health care. And we're committed to delivering an easier, personalized health care experience for the next century.

Leading the way

Drawing upon its legacy business, Cambia has pivoted to meet the needs of today's health care consumers. Our [six regional health plans](#), our health policy center, [Echo Health Ventures](#) and the [Cambia Health Foundation](#) are all united by our Cause—to serve as a catalyst to transform health care, creating a person-focused and economically sustainable health care system.

Echo Health Ventures—investing in health care transformation

Echo Health Ventures invests to build and grow great health care companies. Echo brings together Cambia Health Solutions, Mosaic Health Solutions, USAble Corporation and BCBS of Tennessee to accelerate health care innovation on a national scale and drive meaningful health care impact.

Personalized, guided and compassionate health care solutions

Our goal is to provide an easier health care experience for people by helping anticipate and respond to people's needs, reduce confusion, bolster decision-making and guide them through the health and well-being ecosystem. Using human-centered design principles, Cambia's work aims to:

- Empower people
- Help simplify
- Make options easier to understand
- Organize care
- Track progress

“For more than 100 years, people have trusted us at some of the most important moments in their lives—as they experience the joy of a new baby, manage a chronic disease, or deal with a serious diagnosis like cancer. We are here to serve others—to simplify their health care journeys, meet them where they are, and transform our health care system to be more person-focused.”
